

2009 Sewer and Water Service Survey in Yellow Banks Neighborhoods

Overall Survey Results

Information Last Updated: 8.20.09

Question 1: Do you want the Village to install sanitary sewer and water facilities to serve your property?

	Number of Surveys	Percentage	Num. of Parcels Represented	Percentage
Surveys Mailed:	192		232	
Surveys Received:	150	78%	173	75%
Yes	31	21%	34	20%
No	115	77%	133	77%
Other	4	3%	6	3%

Question 1a: What should the timetable for construction be?

	Number	Percentage	Num. of Parcels Represented	Percentage
As soon as possible	12	8%	14	8%
Within 5 years	13	8%	13	7%
5-10 years	11	8%	12	7%
10-15 years	17	12%	18	11%
Never	72	48%	86	50%
Other	24	16%	29	17%

Question 2: Common practice has been for both water and sanitary sewer service to be extended at the same time as a practical matter. Would you feel differently if you could receive municipal water service or sanitary sewer service rather than both?

	Number	Percentage	Num. of Parcels Represented	Percentage
Yes (answer question 2a)	17	12%	19	11%
No	104	69%	122	70%
Both	24	16%	25	15%
Other	5	3%	7	4%

Question 2a: If you answered yes to question 2, which service would you prefer to receive?

	Number	Percentage	Num. of Parcels Represented	Percentage
Water	8	5%	9	5%
Sanitary Sewer	10	7%	11	6%
Other	131	88%	150	89%

Question 3: Would you be willing to allow your private well to be sampled by a representative of the Village and analyzed for the presence of nitrates, coliform bacteria, and iron in an effort to survey the water equality in your neighborhood?

	Number	Percentage	Num. of Parcels Represented	Percentage
Yes	61	41%	71	41%
Yes, but only if cost is shared	34	22%	36	20%
No	46	31%	55	33%
Other	9	6%	11	6%

150 total surveys received representing 173 total parcels

**Other- includes a non-standard answer or not marked at all.
