**Re: Village of Weston – Ross Ave, Pavement Replacement Project**

The Village of Weston has contracted with American Asphalt to mill and replace the existing 12 foot wide - East bound and West bound asphalt vehicle travel lanes on Ross Ave starting 300 feet east of Camp Phillips Rd. going east to a point 50 feet east of Mesker St. Each of the 12-foot-wide E/B and W/B driving lanes of Ross Ave. will be milled full depth and replaced with new asphalt pavement. The outside existing 8-foot-wide auxiliary Bike Lanes will remain in place and not be milled.

**Also please note** – the pavement replacement will run south on Mesker St for approx. 30 feet and north onto Leduc St for approximately 30 feet. **Both Mesker and Leduc Streets access to Ross Ave will be closed during this project.**

The closure of Ross Ave and asphalt milling portion of the project is scheduled to start on July 19<sup>th</sup>, 2021 and Ross Ave is anticipated to be reopened to through traffic on or around July 27<sup>th</sup>. Please be cognizant that the work on this project is weather dependent.

**ROSS AVE DETOUR** - Starting at Camp Phillips Rd. Ross Ave will be detoured, south on Camp Phillips Rd. to Schofield Ave, east on Schofield Ave to Fuller St and then north on Fuller St back to Ross Ave.

Access on Ross Ave from a point 300 feet east of Camp Phillips Rd to 50 feet east of Mesker St will remain available to residences abutting Ross Ave in the construction area, however at times you can expect intermittent delays.

**LANDLORD NOTICE** – If you own rental properties within the construction area please share this notice with your tenants.

Your patience is appreciated throughout this pavement replacement project. Please contact me with any questions or concerns.

Thanks, Dan Raczkowski
